3. TITLE and AUTHOR AFFILIATION

The paper title, author(s) name(s), affiliation, complete mailing address and email should be centred at the top of the first page using the fonts and type sizes indicated above. If there are several authors, the complete affiliation should be given for each of them using superscripts⁽¹⁾ in the authors⁽²⁾ list⁽³⁾ to refer to them.

4. HEADINGS

This sheet has been typeset in accordance with the style to be followed for the headings. Use the decimal system in Arabic figures for the numbering of headings and subheadings. Major (or section) headings are to be in capitals without underlining.

4.1 Subheadings

Subsection headings are to be in lower case with initial capitals. They should be flush with the left-hand margin.

5. EQUATIONS

Equations are to be numbered consecutively throughout the paper. Each equation number must be unique. Equations should be centred, with the equation number in parentheses, flush with the right-hand margin of the column.

Leave a blank line before and after equations. Always refer to equations by number, as Eq. 1 or Eqs. 3-6, NOT as “above” or “below”.

$$T_s = \frac{T_b}{1 + (\lambda T_b \sqrt{\alpha}) \ln \varepsilon} \quad (1)$$

6. FIGURES AND TABLES

Responsibility for the provision of high quality figures resides with the author. Figures will be printed in black and white (**NOT color**). Remember that detail and contrast are lost in printing, so please ensure the illustrations are of good quality and contrast. In line drawings, please avoid shading. Figure captions should be below the figures; table captions should be above the tables. Use the abbreviation “Fig. 1,” even at the beginning of a sentence.

7. ABBREVIATIONS AND ACRONYMS

Define abbreviations and acronyms the first time they are used in the text, even after they have been defined in the abstract. Do not use abbreviations in the title unless they are unavoidable.

8. PAGE NUMBERING

On the back of each page, write lightly in pencil your last name and the page number.

9. REFERENCES

Number citations consecutively in square brackets [1]. Refer simply to the reference number, as in [3]. Do not use “Ref. [3]” or “reference [3]” except at the beginning of a sentence: “Reference [3] was the first...” The title of the book or the journal should be in *italics*.
